

MINING SERVICES

> An industry leader in all aspects of Mine Site Maintenance

ABOUT US

VAN DAMME GROUP

READY. RELIABLE. PROVEN

Van Damme Group provide a comprehensive range of equipment and services designed to enhance your productivity. Our strong reputation is built on nurturing quality, efficient, and reliable relationships with our clients, supported by our dedicated and experienced workforce and management team.

Established in 2012 by brothers, Lucas and Daniel, this family-owned company combines their shared passion for the earthmoving and trucking industries with more than 30+ years of collective experience.

OUR COMMITMENT

We are committed to delivering long-term and consistent value to clients, employees, and local communities by prioritizing safe work practices that ensure reliability and exceed expectations. By focusing on efficient asset maintenance, we enhance productivity and provide dependable services. Our dedication to innovation drives us to develop advanced and original solutions, keeping us ahead of the competition.

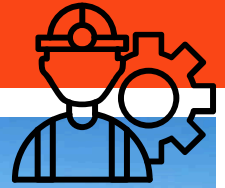

QUALITY, SAFETY & ENVIRONMENT

We strive to operate efficiently while upholding the highest safety and environmental standards. Our commitment includes conserving resources, minimising impacts on surrounding environments, and adhering to relevant regulations. Safety is our highest priority, with the aim of achieving zero harm to our team, the public, and the environment, as well as to property and equipment.

With the capabilities of a large corporation and the personal touch of a family run business.

CAPABILITIES

EQUIPPED TO DELIVER

MINING SERVICES

Van Damme Group pride ourselves on offering a comprehensive range of surface mining services designed to ensure your operations remain efficient and productive. With a proven track record and a strong reputation as the preferred contractor in the industry, we are committed to delivering exceptional results.

Safety is at the forefront of our mission. We adhere to the highest safety standards, implementing rigorous training programs and best practices to protect our team and the environment. Our commitment to safety not only safeguards our workers but also enhances overall project performance.

MINE AND SITE MAINTENANCE

We provide comprehensive on-site maintenance and plant management support services, ensuring optimal performance and reliability. With extensive experience in maintaining mine sites for our various clients, we understand the unique challenges of the mining industry. Our commitment to proactive maintenance not only minimises downtime but also enhances the overall efficiency of operations.

Our services include, but are not limited to:

- Mine Rehabilitation
- Earthworks
- Access Road Construction - LV/HV
- Dust Suppression - Bulk Water Haulage
- Waste Management
- Infrastructure construction/maintenance
- Coal and Rejects Haulage
- Quarry works
- Weed Suppression
- Drilling preparation
- Drainage/Dam Construction
- Cell Services

CONCRETE BATCHING

With onsite batching plants we are able to provide a reliable supply of high-quality concrete. Batching onsite significantly increases efficiency by reducing delays, allowing for enhanced productivity on-site. With customizable mix designs, we can create various concrete types and strengths tailored to meet the specific needs of each project. Additionally, on-site production eliminates the costs associated with transporting ready-mixed concrete from external suppliers, resulting in substantial cost savings.

EARTHMOVING

Van Damme Group has a diverse fleet of heavy equipment, offering earthmoving solutions to the mining, civil and rural industries. Our modern fleet of equipment is tailored to meet the diverse needs of surface mining, enabling us to tackle projects of any scale with precision and efficiency. Our experienced operators bring a wealth of knowledge and expertise to every job, ensuring that all operations are conducted smoothly and effectively.

Areas of specialty include, but are not limited to:

- Mine Rehabilitation
- Dust Suppression - Bulk Water Haulage
- Rural and Agricultural Earthworks
- Load and Haul
- Civil Construction
- Bulk Earthworks

HAULAGE

- > 6 Million Tonnes, 2025
- > On & Offroad Haulage

CAPABILITIES

EQUIPPED TO DELIVER

HAULAGE

Van Damme Group operates an extensive fleet of transport equipment, delivering logistics and handling solutions for both on and off-road applications. Our modern fleet allows us to provide flexible haulage solutions for various materials, whether short-term or long-term.

Supported by our maintenance workshop and field service teams, we ensure reliability and efficiency. As an NHVAS-accredited company, we participate in Mass Management and Maintenance Programs and implement management strategies including MT Data, Guardian Fatigue Systems, Loadrite, Gearbox Maintenance and Planning, as well as GPS technology.

> 70-200T Coal Payloads

> Up to 130T Rock Payloads

BULK HAULAGE - ON & OFF ROAD

Efficiently moving resources not only maximizes output but also supports sustainability efforts. Our specialised high-payload equipment is designed to enhance productivity, ensuring resources are delivered safely and efficiently, meeting client and industry demand.

- Coal Haulage/Quarry Materials
 - Side Tipper - Single and multi-trailer combinations
 - Side Tipper - Off Road Bogie drive, Tri drive and Bigfoot combinations

HANDLING SERVICES

Our bulk haulage services are enhanced by our earthmoving capabilities, allowing us to offer a comprehensive service package for bulk haulage projects. We utilise our earthmoving equipment, including loaders and excavators, along with qualified operators, to provide load and haul services. This integrated approach results in significant cost and time savings for our clients.

TRANSPORT & LOGISTICS

We have extensive experience in transporting a wide range of products, encompassing sectors such as agriculture, mining, and general freight. Our diverse capabilities allow us to handle various cargo types, ensuring efficient and reliable delivery tailored to the specific needs of each industry. Our expertise ensures that every load is delivered on time and in optimal condition, supporting our clients' operations across multiple sectors.

- Bulk/Heavy Haulage/Rural Supplies
 - Trailer - Body Tippers, Tri axle drop deck, Quad floats and Dolly combinations
- Non-potable Water
 - Trailers Single 33,000L
 - Double 66,000L
 - Body Water Trucks
- Dangerous Goods/Freight/Rural Supplies
 - 6T Body truck/ Mega Tilt Tri axle
- Scrap Metal/Waste
 - Semi-end Tipper
